

2022 Ministry Impact Report

**multiplication
network**
more churches, stronger churches

A Letter from the President

I am excited to share our 2022 ministry results with you! These results would not have been possible without your support or the work of our hub leaders and our global staff.

One of the highlights this year was gathering with staff from around the world in the Dominican Republic. This was our first time gathering since the COVID-19 pandemic began and seeing so many people in one place was wonderful.

Financial support from donors like you helps us to find and support faithful leaders in all of our 7 ministry hubs who are committed to our mission of More Churches and Stronger Churches. These leaders facilitate training, contextualization, and translation initiatives to reach more people with the Gospel.

Thank you again for your partnership in this ministry. We hope that you will rejoice with us as we share the fruit of our labor in the following pages.

Together in His Mission,

Sakhoeurn's Story

Sakhoeurn Nhong and her family were Buddhists who worshiped the spirits of their ancestors and demons. But no matter how devoted they were, Sakhoeurn's family was still plagued with illnesses and poor health.

After hearing the good news of Jesus Christ from a friend, Sakhoeurn dedicated her life to Christ and was baptized in 2019.

She and her husband, who's also a believer, decided to remove all the altars in their house and opened their home for worship services. Through your generosity to Multiplication Network, you helped to equip Sakhoeurn to start a church.

"This training helps spark the fire of the Holy Spirit in me to take up the roles and responsibility as a leader of this new group right here in my home," Sakhoeurn says.

Escarlet's Story

After receiving a call to bring the Gospel to another community in a dream, Escarlet Pacheco and her husband Andres began their ministry in the community of Jacot in the Dominican Republic. At first, few people were around because the area was still being developed. "I did not know what I was going to do," Escarlet says. "I asked the Lord, 'If there are no people here, to whom am I going to share your Word?'"

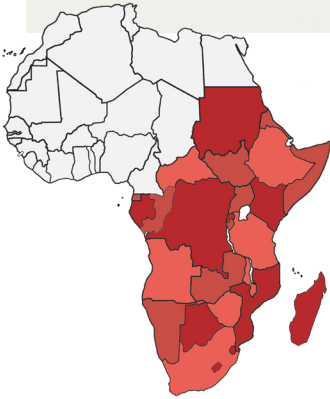

Escarlet continued to return despite the lack of people. Two weeks later, people began to arrive. Soon, Escarlet's meetings with the members of this community went from 12 people to more than 35. The group has been meeting weekly under a large tree, and people continue to come.

Escarlet is grateful for the training she received through Multiplication Network. "I have been able to see better results and growth in the small group that I am leading," Escarlet says. **"This taught me that God loves people and when He sends us, we should go. I pray to God for Multiplication Network to be blessed because, without God's help and this training, I would not be giving my testimony today."**

Kambale's Story

After completing his training with Multiplication Network in the Congo DRC, Kambale Justin eagerly awaited a call to start a church. Kambale's pastor, Justin Munyaga, who helped with his training, asked him to pastor a church whose founder passed away.

He was unsure at first but Kambale remembered his training and decided to go. Many believers left the church after the death of their previous pastor so Kambale went door-to-door encouraging them to return. Though it took some time to rebuild, the church is now healthy with both old and new people attending.

Your support helped Kambale to revitalize a dying church. **"The Multiplication Network training has taught me to look to Jesus who is the author and finisher of our faith,"** Kambale says. **"That's exactly what I did and I can confidently say that the results are incredible. Praise the Lord!"**

Multiplying in Romania

David Urs is a church planter in Vânu Mare, a small town in Romania. David has planted a church in Vânu Mare and shares that one of the first people he met and shared the Gospel with is Maria.

“Although it was difficult for Maria to accept the love that God showed her every day in the beginning, she later allowed herself to be guided by the Holy Spirit.”

Maria surrendered her life to Jesus Christ. And even though she lost her eyesight due to age and illness, these troubles did not discourage her from growing closer to the Lord.

David is thankful for all the resources and training Multiplication Network has provided for himself and other church planters in Romania. To David, these have made all the difference in ministering to the lost in Romania.

“Multiplication Network’s training has helped me to know my gifts, to stay organized, and to develop functions that facilitate starting stronger churches. Because of the training and the survey process, I can approach people with confidence and carry the message of the Gospel to them in a more relevant way.”

– Aslanir Garcia, Spain

“Multiplication Network has provided me with excellent opportunities to gain knowledge in church planting and other relevant aspects of ministry. The fact that there are materials from

the training that we can refer to is also useful. I’ve also been able to connect with other church planters who desire to reach more Portuguese for Christ.”

– Nuno Moleria, Portugal

Impact in Colombia

In Cúcuta, Colombia, a vulnerable community with challenges such as poverty and domestic violence, Francisco Chávez is working as a church planter. Francisco is optimistic about the work his church has set out to do in the community due to the training and resources he's received through Multiplication Network.

Hub Director:
Juan Carlos Melo

Ever since Francisco completed the training, the community has noticed that the church is now not only preaching the Gospel but also working in the community. Francisco believes this is thanks to how practical and applicable Multiplication Network's training is to work in the field.

The church works with at-risk children on the streets. Francisco's church has focused on coming alongside them in areas of spiritual life, nutrition, mental health, and learning a trade. This has impacted the children in a positive way and the community has more respect for the church. Now the church has more confidence to proclaim the Gospel to their neighbors.

Revival in Côte d'Ivoire

After the death of her husband, Yao Clementine took over leadership of the church her husband had started in Kouibly, Côte d'Ivoire.

Yao had no educational background. She knew nothing about church administration, how to train volunteers for church planting, or how to keep records and reports. Multiplication Network provided her with training that helped her organize and train her church workers and pastors. **"Multiplication Network's training allows for rapid growth among new believers, some of whom are already joining our church planters. Our goal is for these small groups to become local churches after a year,"** says Yao.

Thanks to Multiplication Network's training, Yao has been able to start more churches in the Kouibly area within a short period of time. She is incredibly thankful for the work Multiplication Network is doing to strengthen her church and others around the world.

We do **More Together!**

THANK YOU

A Letter from the CFO

We are very grateful for the discerning Kingdom Investors who made a significant and eternal impact by funding the work of church planters around the globe. As 2022 came to a close, we celebrated that Multiplication Network had the best year ever - both in our giving history as well as in starting more churches than ever before.

Expenses substantially increased last year as we returned to pre-pandemic levels. As the number of countries with active, verifiable ministry increased, corresponding increases to US staff were needed to help bolster and sustain this growth. Inflation also impacted costs, especially for travel, conferences, and translation. However, the ability to travel and gather together for training greatly encouraged and strengthened the church planters.

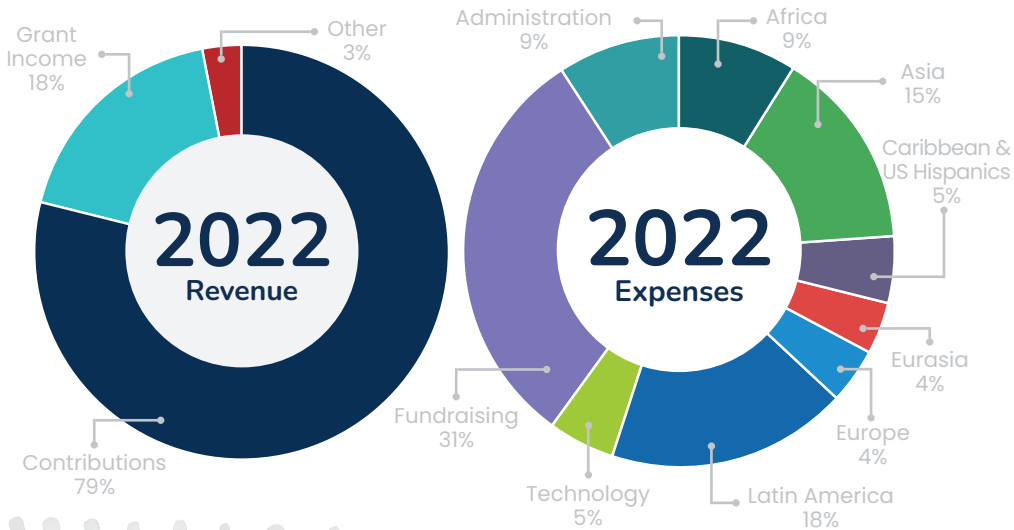

Multiplication Network has been blessed to have Kingdom Investors like you who believe in the transformational impact made as we join together to equip and train national leaders to start healthy churches.

Thanks to you, we have the confidence to enter 2023 with faith that God will continue to grow the ministry to train and equip even more national leaders to start healthy churches in their respective communities.

A Letter from the VP of Development & Communication

"For it is in giving that we receive."

When I hear these inspiring words from St. Francis of Assisi, I think of the generous people who make the ministry of Multiplication Network possible. I think of you.

I believe that each of us who financially invests in the work of global church planting receive more than we give. We receive the joy of knowing that people are being introduced to Jesus for the first time.

You have seen in this report that because of your generosity, Multiplication Network was able to start 7,092 healthy new churches in 2022. **Yes, 7,092!** And because of your *giving*, **237,907** people *received* the saving grace of Jesus Christ. May you receive tremendous joy in that truth.

On behalf of Multiplication Network, and the thousands of new believers, THANK YOU for giving. Because of you, there are more workers for the harvest and the Kingdom of heaven will be a little more crowded. Praise The Lord!

Blessings,
